PRODUCT DATA SHEET

GYPFRAME® MF5 CEILING SECTION

Applications

Gypframe MF5 ceiling sections form the secondary framework in GypCeiling MF and GypCeiling Shaft systems where it is screwed or clipped to primary supports.

Product information

Composition

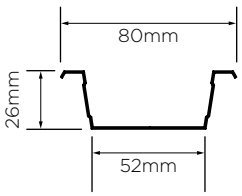

Cold-roll steel (DX51D+Z140) formed using the patented UltraSTEEL® process

Colour

Steel.

DIMENSIONS AND WEIGHTS

Lengths available (mm)	3600
Bespoke length available	Yes
Width (mm)	52
Gauge (mm)	0.50
Weight (kg/lm)	0.48

Performance

Here we only provide performance information related to the product. Please see the White Book online for system-dependent performance.

Standards

EN 14195:2005.

Reaction to fire	A1
Yield strength (N/mm2)	210

SAINT-GOBAIN

Installation

Please see our White Book online for more information about installing and handling Gyproc systems and Gypframe profiles. See the Gypframe Safety Data Sheet for guidance on health and safety, handling and storage.

Fixing compatibility

Check the system specification for the required Gyproc screw type.

Storage

Store inside where possible, for outdoor storage please ensure that the products are securely covered with an anchored polythene sheet or tarpaulin to protect from dampness and rain.

Safety Data Sheet

Safety data sheet (SDS) available on www.gyproc.ie

Packaging overview

These components are supplied in packs banded together with nylon strapping.

Quantity per pack	10

Environmental

Recyclability

Gypframe components are 100% recyclable.

Disposal

Waste from Gypframe metal framing components is fully recyclable. The European Waste Catalogue code is 12 01 01.

BES 6001 classification

Excellent.

Carbon Low

Gypframe metal profiles manufactured from lower carbon steel are now available for this product. These profiles are printed Carbon Low to distinguish them from standard profiles.
