

DRAPER[®]

RECHARGEABLE
**WORKLIGHT
& POWERBANK**

99707

CE

These instructions accompanying the product are the original instructions. This document is part of the product, keep it for the life of the product passing it on to any subsequent holder of the product. Read all these instructions before assembling, operating or maintaining this product.

This manual has been compiled by Draper Tools describing the purpose for which the product has been designed, and contains all the necessary information to ensure its correct and safe use. By following all the general safety instructions contained in this manual, it will ensure both product and operator safety, together with longer life of the product itself.

All photographs and drawings in this manual are supplied by Draper Tools to help illustrate the operation of the product.

Whilst every effort has been made to ensure the accuracy of information contained in this manual, the Draper Tools policy of continuous improvement determines the right to make modifications without prior warning.

3. WARRANTY

3.1 WARRANTY

Draper tools have been carefully tested and inspected before shipment and are guaranteed to be free from defective materials and workmanship.

Should the tool develop a fault, please return the complete tool to your nearest distributor or contact

Draper Tools Limited, Chandler's Ford, Eastleigh, Hampshire, SO53 1YF, England.

Telephone Sales Desk: (023) 8049 4333 or Product Help Line (023) 8049 4344.

A proof of purchase **must** be provided with the tool.

If upon inspection it is found that the fault occurring is due to defective materials or workmanship, repairs will be carried out free of charge. This warranty period covering labour is 12 months from the date of purchase except where tools are hired out when the warranty period is 90 days from the date of purchase. This warranty does not apply to any consumable parts, any type of battery or normal wear and tear, nor does it cover any damage caused by misuse, careless or unsafe handling, alterations, accidents, or repairs attempted or made by any personnel other than the authorised Draper warranty repair agent.

Note: If the tool is found not to be within the terms of warranty, repairs and carriage charges will be quoted and made accordingly.

This warranty applies in lieu of any other warranty expressed or implied and variations of its terms are not authorised.

Your Draper warranty is not effective unless you can produce upon request a dated receipt or invoice to verify your proof of purchase within the warranty period.

Please note that this warranty is an additional benefit and does not affect your statutory rights.

Draper Tools Limited.

4. INTRODUCTION

4.1 SCOPE

20W COB LED rechargeable worklight with powerbank and 360-degree rotating bracket and light. Supplied with Micro USB to USB cable for charging the worklight and power take off for charging mobile devices.

4.2 SPECIFICATION

Stock no.....	99707
Part no.....	RWL20PB
LED	20W COB
Battery:	
Type	Li-Ion
Rated Voltage	3.7V
Rating	4.4Ah
Charging time	5 hrs
Operating time:	
LED (high)	2.5 hrs
LED (low).....	6 hrs
Luminosity:	
LED (high)	1500 lumens
LED (low).....	750 lumens
USB power take off:	
Output (max)	5V (1A)
Weight (light only)	0.699kg

4.3 HANDLING AND STORAGE

Do not drop the worklight as this can damage and shorten the life span of the unit.

Store in a dry location as damp conditions can damage the worklight.

Charging on a regular basis is advised to prolong the life of the battery cells.

5. HEALTH AND SAFETY INFORMATION

5.1 GENERAL SAFETY INSTRUCTIONS

General Power Tools Safety Warnings

WARNING: Read all instructions. Failure to follow all instructions listed below may result in electric shock, fire and/or serious injury.

Save all warnings and instructions for future reference.

The term "power tool" in the warnings refers to your mains operated (corded) power tool or battery operated (cordless) power tool.

1) Work area safety

- a) **Keep work area clean and well lit.** Cluttered or dark areas invite accidents.
- b) **Do not operate power tools in explosive atmospheres, such as in the presence of flammable liquids, gases or dust. Power tools create sparks which may ignite the dust or fumes.**
- c) **Keep children and bystanders away while operating a power tool.** Distractions can cause you to lose control.

2) Battery Tool Use and Care

- a. **Recharge only with the charger specified by the manufacturer.** A charger that is suitable for one type of battery pack may create a risk of fire when used with another battery pack.
- b. **Under abusive conditions, liquid may be ejected from the battery; avoid contact.** If contact accidentally occurs, flush with water. If liquid contacts eyes, additionally seek medical help. Liquid ejected from the battery may cause irritation or burns.

5.2 ADDITIONAL SAFETY INFORMATION

- Close supervision is necessary when the unit is used by or near children. Do not use as a toy.
- To protect against risk of electrical shock or fire, do not put unit or charger in water or other liquid.
- Do not put this unit in a fire or near any flammable object as this may cause explosion.
- Do not drop, throw or use excessive force on the unit as it may cause permanent damage to the product.
- Do not operate the unit if it has been wet or moist to prevent against electric shock, explosion and/or injury to yourself and damage to the unit.
- Recharge indoors only, using only the charger supplied.
- Use the charger only in a standard electrical outlet.
- Do not attempt to disassemble the unit as this may cause damage.
- Do not shine directly into eyes.
- Unplug the charger before any routine cleaning or maintenance. Never let any liquid get inside the unit, use only mild soap and damp cloth to clean outer surfaces of the unit.
- The built-in Li-ion battery must be recycled or disposed of properly, do not expose the battery to fire or intense heat as it may explode.
- Do not overcharge the unit, recharge not more than 12 continuous hours.
- To assure product safety and reliability, repairs, maintenance and adjustment should be performed by authorised service centres or other qualified service organisations, always using identical replacement parts.

6. TECHNICAL DESCRIPTION

6.1 IDENTIFICATION

- ① On/off beam button.
- ② Adjustable stand.
- ③ LED light.
- ④ Battery level indicator.
- ⑤ Power take off port.
- ⑥ Charging port.

7. UNPACKING AND CHECKING

7.1 PACKAGING

Carefully remove the worklight from the packaging and examine it for any sign of damage that may have happened during shipping. If any part is damaged or missing; please contact the Draper Helpline (the telephone number appears on the Title page) and do not attempt to use the lamp.

Warning! Some of the packaging materials used may be harmful to children. Do not leave any of these materials in the reach of children.

If any of the packaging is to be thrown away, make sure they are disposed of correctly; according to local regulations.

7.2 WHAT'S IN THE BOX?

As well as the worklight; there are separate parts not fitted or attached to it.

- ⑥ Micro USB cable.

8. ASSEMBLING THE WORKLIGHT

8.1 POWER SUPPLY

Before you connect the equipment to the power supply make sure that the data on the rating plate is identical to the supply voltage.

Warning! Always pull out the power plug before making adjustments to the equipment.

Warning: Do not connect the machine to the power supply before the product is completely assembled.

8.2 CHARGING

NOTE: The micro USB connector is tapered and will only go in one way, do not force the micro USB connector into the lamp; as it may damage the connector or short circuit the lamp, this may invalidate your guarantee.

Connect the charging micro USB cable into the charging socket, which is located under the cover on the back of the worklight. Connect the other USB plug to a USB output adaptor (not supplied).

Disconnect the charger from the worklight when it is fully charged.

Lithium-ion cells prefer small charges often.

Lithium-ion technology is lightweight and compact due to increased capacity in comparison to other battery chemistries.

Lithium-ion cells have no 'memory effect' and a long cycle life with outstanding discharge performance.

Lithium-ion cells suffer from a loss in capacity or thermal runaway if over charged and will degrade if allowed to enter deep discharge, however all of these situations are negated due to the complex circuitry incorporated within this product.

Charging must be carried out in an environment with an ambient air temperature between 5°C to 45°C with the transformer supplied.

To prevent overheating, do not cover the transformer.

Attention: If the cable is damaged or the non-self-resetting protective device is activated due to short circuit/overload the transformer shall be scrapped. A replacement of identical specification, design and application shall be obtained.

Note: Charging the unit with the 12V DC charger via a vehicle socket will drain the vehicle's battery unless the engine is running.

9. WORKLIGHT INSTRUCTION

9.1 OPERATION

CAUTION: Never shine the LED light directly into your or any one else's eyes.

To run through the sequence of modes (High, Low, SOS, Strobe and Off).

Press the on/off ① button.

9.2 WORKLIGHT OPERATION

The worklight is operated via the ON/OFF switch ①.

- ① Press once for high beam.
- ② Press twice for low beam.
- ③ Press third time for SOS.
- ④ Press fourth time for strobe.
- ⑤ Press fifth time to switch off the worklight.

Warning! Do not shine directly into any person's or animal's eyes.

9.3 USB POWER TAKE OFF

Connect the USB end of the power cord into the USB output port beneath the cover, and connect the Micro USB end to your mobile device for charging.

10. MAINTENANCE

10.1 MAINTENANCE

Use only mild soap and a damp cloth to clean this worklight. Do not submerge into liquid.

11. EXPLANATION OF SYMBOLS

11.1 EXPLANATION OF SYMBOLS

WEEE
Do not dispose of Waste Electrical & Electronic Equipment in with domestic rubbish.

Lithium-ion product.
Refer to your local authority for advice on disposal and recycling.

For indoor use only.
Do not expose to rain.

Do not incinerate or throw onto fire.

Warning! Read the instruction manual.

Warning! Do not aim beam at bystanders or look directly into light source.

12. DISPOSAL

12.1 DISPOSAL

At the end of the machine's working life, or when it can no longer be repaired, ensure that it is disposed of according to national regulations.

Contact your local authority for details of collection schemes in your area.

In all circumstances:

- Do not dispose of power tools with domestic waste.
- Do not incinerate.
- Do not abandon in the environment.
- Do not dispose of WEEE* as unsorted municipal waste.

Li-ion

12.2 HEALTH AND SAFETY FOR BATTERIES

Warning! Do not put in fire or mutilate – cells may burst or release toxic materials.

- Do not short circuit cells, may cause burns.
- The battery must be removed from the appliance before it is scrapped.
- The battery is to be disposed of safely.
- Do not mutilate batteries, corrosive electrolyte will be released.
- Do not incinerate – danger of explosion and release of toxic fumes.
- Do not dispose of batteries or cells in a charged condition.

Expired lithium-ion batteries must be recycled/disposed of in accordance with the appropriate regulation or legislation. They should be returned to your local warranty agent/stockist.

* Waste Electrical & Electronic Equipment.
